

Dependability as promised.

ALWAYS FINISH FIRST

Get to the bottom faster.

Eliminate costly recurring problems common in today's most demanding cased and open hole wells with the **Spir-o-lizer™** and **BladeRunner™** wellbore centralizers from Downhole Products. The advanced patented metallurgy and unique design reduce torque and drag by an average of 40 percent, making Spir-o-lizer series centralizers invaluable tools for getting casing, liners and screens to the bottom with ease.

Downhole Products' Zero Fail Commitment ensures problem-free performance and saves costly rig time by virtually eliminating miss-runs. Maximize drag reduction, minimize start-up torque and always finish first.
